## EDUCATION

**Harvard College** — **Cambridge, MA**
Pursuing a dual Bachelor's degree in Physics (with applied emphasis) and History & Literature — May 2029
Cumulative GPA: 3.6/4.00 | Harvard Outing Club Leader, Harvard Club Soccer
**Relevant Courses:** Mechanics and Special Relativity, Multivariable Calculus, Machine Ecology, CS32 (python & ML), Linear Algebra & Differential Equations

**The Paideia School** — **Atlanta, GA**
Student Government Communications Chair, VEX Robotics World Championship, Science Olympiad President–2025 State Champion, Varsity Soccer Captain–GHSA 2023 State Champion, All-District Symphonic Band, GPA:3.95/4 — May 2025

## WORK EXPERIENCE

**LIN, Deodorant Startup Focused on Microbiome Health/Sustainability** — **Cambridge, MA & New Haven, CT** Aug. 2025 – March 2026
*Co-Founder and CEO*

- Created deodorant focused on improving microbiome health using clinically-proven beneficial medicinal herbs
- Experimented with non-plastic forms of encasement e.g. Bamboo, Cardboard
- Chosen for selective semester-long startup incubator (Yale Tsai City Launch Pad) with personalized mentorship
- Pitched startup to 300+ Yale alumni, faculty, and students

**The Lodge at Whale Pass** — **Whale Pass, Alaska**
*Camphand/Deckhand* — Jun. 2025 – Aug. 2025

- Worked with rascals, rogues, and rapscallions in bear country, Alaska, 200 miles from a grocery store, to create an excellent guest experience.
- Most tasks at night involved laborious work around the lodge, while the daytime was spent on a fishing boat or guiding guests in the woods.

**Sanguina** — **Peachtree Corners, GA**
*Intern* — Jun. 2024 – Aug. 2024

- Helped train image recognition machine learning algorithms for hemoglobin scanning app
- Performed 90+ hemoglobin tests to find the accuracy of Hemocue Point-of-Care tests
- OSHA Blood-handling certified

## COMMUNITY INVOLVEMENT

**Decatur Youth Council,** Co-Chair — Aug. 2021 – Jul. 2025

- Organized 10+ city-wide events raising ~13k for Decatur non-profits
- Served local government working with city commissioners
- Sharpened leadership skills at city-level

## Technical Skills & Projects

**Machine Ecology at Harvard:** Worked with 8 other students to design and build low-cost buoy sensors (Seeed XIAO ESP32-S3) that measure depth, salinity, and temperature; and send compact telemetry over ESP-NOW. Worked with Fusion360 on Housing, Arduino for depth sensor, & C++ for telemetry.
Project Website: https://sensorsforrestoration.github.io/SensorsForRestoration/

**Fully Automated YouTube Channel:** Fully automated YouTube Shorts channel using Python, generating short-form videos that averaged approximately 30K views each. Built web scrapers to source engaging Reddit fun facts and one-liners, integrated an AI agent to generate descriptive images and overlay text in a custom meme template, and automated clip selection with emotional metadata, split-screen video assembly, and final upload workflow.

**VEX Robotics**
Led design/building team on competitive VEX VRC robots: drivetrain design, gear ratios, lifting/movement mechanisms, and a custom PTO for climbing mechanism; integrated vision, distance, and inertia sensors for programming use; iterated via constant prototyping and testing. Coded 5th highest programming skills in Georgia qualifying for VEX World Championship 2024
